WASTE MANAGEMENT WORLD

A GLOBAL MAGAZINE FOR PROFESSIONALS

OVERVIEW

Waste Management World is the official publication of the International Solid Waste Association (ISWA) and the only global magazine covering all aspects of the solid waste and resource industries. Since 2000 we have been examining the latest developments and innovations from the Recycling, Waste to Energy, Biowaste and Municipal sectors. Being a part of ISWA gives us unrivalled access to the leading waste operators and the institutions that shape the industry's policies on a global level.

TARGET GROUP

Buyers and decision makers from waste service companies/centres (recycling, waste to energy, biowaste and municipal), waste generators, machinery manufacturers, distributors, traders, dealers, scrap industry, waste and resource industry consultants, engineering firms, local and national government, commodity traders and legal/financial firms.

TECHNICAL SPECIFICATIONS

WMW prefers ad material to be supplied in PDF format. We also accept ads built with these programs: Adobe Indesign, Illustrator, Freehand and Photoshop.

ABOUT ISWA: ISWA – The International Solid Waste Association – is an international, independent and non-profit making association, working in the public interest to promote and develop sustainable waste management worldwide. It is the only globally active association and is open to individuals and organisations from the scientific community, public institutions and public and private companies working in the field of waste management.

Dear Readers,

Our industry moves fast. What was once known simply as the waste industry must reposition itself as a key player in the global resource industry. As the International Solid Waste Association's official publication, WMW is uniquely placed to be not only your global guide to the resource industry, but your customers' global guide. Over the coming year each issue of Waste Management World will bring expert advice on the issues that matter. From practical guides to the technology and equipment that makes the industry tick, to informed opinion, comment and debate on the hottest topics of the day.

WMW is the only publication covering the whole of the waste industry, collection, handling, sorting, biological treatment, recycling, reprocessing, energy recovery and landfilling - WMW keeps your clients informed on all the news and developments from across the whole world. In an increasingly globalised world no other publication can get your message to your customers better than WMW.

Marc Tijhuis,
Managing Director ISWA

TARGET GROUPS

Recycling

With the need to move to a more circular economy becoming widely accepted, the recycling industry is ever more important on the global commodity markets. Over the coming year WMW has some great content lined up to keep you and your customers informed of the latest technological developments, regulatory updates and market drivers.

Waste to Energy

With the increasing need to divert & reduce the use of landfill, waste to energy continues to play a key role. This year will be an important one for the industry. New emission standards are being agreed and major projects will be both planned and built. WMW will be keeping your customers up to speed with developments.

Collection & Handling

WMW will be bringing you news and user reviews of the latest machines for collecting and handling waste. We will have coverage of refuse collection vehicles, road sweepers and other municipal vehicles, plant equipment and landfill compactors, as well some unique machines you may never have imagined.

Biowaste

The world over, there are huge opportunities to cut GHG emissions with better management of organic wastes. It's a fast paced and competitive industry. We're looking forward to covering developments in anaerobic digestion and composting, as well as landfill gas, biofuels and advanced technologies.

FOCUS ONLINE

How do you benefit?

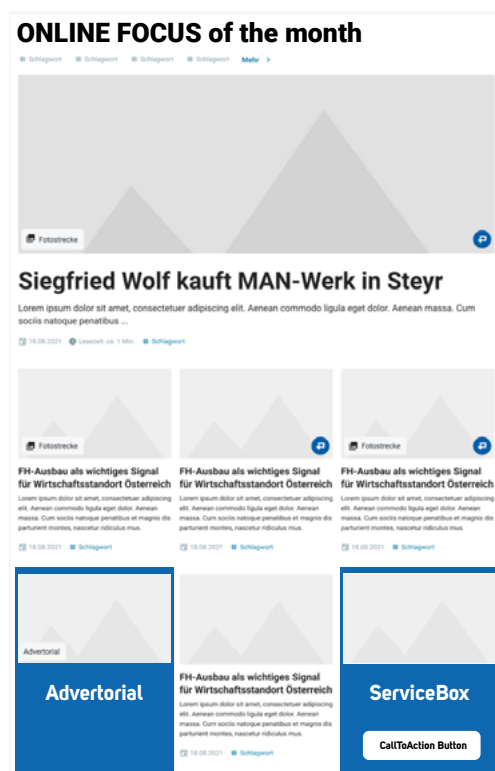

We support and drive digitalization of content: Every month an up-to-date focus topic offers 360-degree information about issues that move the sector.

Your advertisement is featured on its own topic-stage on our website. Thus the visibility of your product or content is guaranteed and you are present at your most important focal points.

Reports, interviews, specialist articles, commentaries, videos and product information comprehensively offer everything that experts and decision-makers need to know. Our newsletter summarizes the findings and delivers them combined to our readers.

Your benefit!

Your advertisement is being embedded in a topic exclusive online stage in this SEO-optimized environment. Therefore, the visibility of your advertising message within a suitable thematic focus is guaranteed.

Is it working yet?

We mean your marketing. Unfortunately, Henry Ford could not answer this question back in his day either. He could not say which 50% of his invested budget was actually a total waste. Today, we have a better grasp of this issue. Digital tools make the impact and results of B2B campaigns more measurable than ever. B2IMPACT, the new agency of WEKA Industrie Medien, reaches exactly the communication targets you define – with content, performance and creation. And Henry Ford? We probably could have helped him out, too.

b2impact.com
