Dear partners of TGA,

Our guiding principle at TGA is to connect the sector. This is what we do in print, online as well as on our congresses and conferences, in person as well as virtually. TGA is the only Austrian journal, that comprehensively addresses all areas of building services: heating, climate-, ventilation- cooling-, measurement- and control technology, electrics, light, safety and fire protection, sanitary, bathroom, wellness and facility management.

With our print issues you reach more than 27.000 decision-makers, 10 times per year, Our special publications about the topics TGA planning, fire protection and electrics additionally address your target group.

Communication on all levels: The constantly growing online offer, our newsletters and events such as the conference „Technology at the hospital“ and the TGA conference offer you ideal platforms to connect with new business partners.

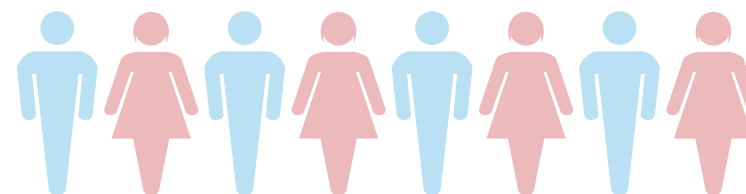

Your advertising message is in the best of hands with us, as we understand decision-makers.

We are looking forward to hearing from you soon!
Barbara Fürst-Jaklitsch & Ing. Marianne Schmidt

B2IMPACT

The agency for impact and results

b2impact.com

Is it already working?

We are talking about your marketing. You know: the one, where unfortunately even Henry Ford did not know, which 50 per cent of the invested capital was poorly spent. Today we know better. Digital tools make the effect and the result of B2B-campaigns more measurable than ever before. B2IMPACT is the new agency of WEKA Industrie Medien and with Content, Performance and Creation it reaches exactly the communication objectives that you have defined. And Henry Ford? Most probably we could have helped him as well.
